AN AFTERNOON
NEWSPAPER
"TODAY'S NEWS TODAY"

MAYSVILLE, KENTUCKY, THURSDAY, OCTOBER 31, 1918.

ONE COPY—ONE CENT.

HELP KENTUCKY INCREASE ITS QUOTA 50 PER CENT.

And This County Will Undoubtedly
Do Its Full Part Towards
the Increase.

The following telegram was received by the Ledger Wednesday night: Louisville, Ky., October 30, 1918. Clarence Mathews, Editor The Public Ledger, Maysville, Ky.

Kentucky will accept the challenge to greatly oversubscribe her original quota to the great United War Work Fund during the big drive two weeks of November 11. This was decided upon at a meeting of the State Executive Committee in Louisville Wednesday afternoon which was called especially to consider the proposition. General Chairman E. W. Hines, of Louisville, presided. The meeting was attended by representatives from all parts of the state representing all seven agencies engaged in the drive, the Y. M. C. A., the Y. W. C. A., the National Catholic War Council, the Jewish Welfare Board, the War Camp Community Service, The American Library Association and the Salvation Army. Reports were made of the recent departmental conference at Chicago when representatives from fourteen states met to hear from Dr. John R. Mott, Director General of the Campaign.

The reason for calling for the over-subscription: These reports were to the effect that if the United States, after passing a bill appropriating billions for war work, is called upon a few weeks later to pass an emergency appropriation bill of two billion more. There must be a heavy over-subscription to the War Work Fund among the men of the army and navy to meet the needs of the war. It was reported that Indiana had voluntarily agreed to increase her quota by a million dollars and that all the other states in the Central Department are accepting the challenge to over-subscribe to the fund by at least fifty per cent. The following bill was introduced by Richard P. Ernst, of Covington: Resolved, that in view of the necessity for a Labor Fund for the United States War Work, it is the sense of this meeting that Kentucky should endeavor to raise its proportion of the amount required for the work and increase it 50 per cent. The bill was recommended to and urged upon each county, and further Resolved, That a copy of this resolution be sent each county, together with a short compact statement of the necessity for this increase.

Mr. Ernst moved that the resolution be adopted and the motion was seconded by Judge H. W. Hingham, of Louisville. The discussion which followed was earnest and complete and was taken part in by the following: Col. P. H. Callahan, S. Thurston Ballard, Benjamin S. Washburn, Judge Robert W. Blum, William H. Heyburn, Marion Taylor, Mrs. Cassell Perry Dunkerson, of Louisville, C. F. Strassner, of Owensboro and Simon Wolf of Lexington. At the close of the discussing the resolution was unanimously adopted.

GEORGE E. STEPHENS, Sec.

FOCH'S TERMS FOR ARMISTICE REACH BERLIN

Arrived There Tuesday Night, It Is
Announced by Vossische Zeitung—
President's Reply to Austria
Ready—Believed He Will
Simply Refer Dual
Monarchy to War
Council.

LONDON, October 31 — Marshal Foch's armistice terms arrived in Berlin Tuesday night, the Vossische Zeitung of Berlin says it learns, according to an Exchange Telegraph dispatch from Copenhagen. Washington, October 31—No information had reached Washington today through either official or diplomatic channels to indicate that the American and Allied military representatives in France had completed their work of framing terms upon which Germany might be granted an armistice. It was assumed that the report of the arrival of Marshal Foch's terms at Berlin Tuesday, referred to in a Copenhagen dispatch quoting the Berlin Vossische Zeitung, was based upon press dispatches of Tuesday from London purporting to outline what would be demanded of Germany. The President spent most of yesterday at work on the Austrian reply, and last night it was believed he had virtually completed the task. It was generally thought that the President, in addition to notifying the Austrian government that its communications had been referred to the Allied governments, would review the steps that Austria and Hungary have taken in the liberation of subject peoples.

RECEIVED COMMISSION

Mr. Rees Clark of the firm of Clark Bros. today received his commission as First Lieutenant in the Motor Transportation Corps, and he is to report within ten days at Camp Jessup, Atlanta, Ga., for service. His foreman, Mr. Henry Royce, will have charge of the garage business during his absence.

As the influenza epidemic seems to be under control here, due to the vigilance of Mayor Russell, his administration, the Board of Health, the Red Cross Committee and the City and County Health officers and nurses, it is thought the ban on opening the churches, theaters and schools will be lifted next week.

A blaze in the house occupied by James Lewis in Morgan's alley last night caused the Fire Department to answer a quick alarm. The fire was the result of a child playing with a lighted candle too near a bed, setting it afire. Loss small.

AUSTRIA WILL WITHDRAW TROOPS FROM ITALY

Bases If On Desire For Armistice and
Peace—American Help Wipe Out
More Than Four Austrian
Divisions.

LONDON, October 31—The entire Italian front is ablaze, a Central News dispatch from Rome says. All the Italian armies now are in action.

Vienna, October 31 — Austrian troops fighting on Italian soil will be withdrawn, according to an official statement issued by the war office last night. The statement reads: "Taking into account the resolve so often expressed to bring about a conclusion of an armistice and peace, putting an end to the struggle of nations, our troops fighting on Italian soil will evacuate occupied regions." As regards the withdrawal of more than sixty miles from the Adriatic to the mountains west of the Piave river, it would appear that the Austrian statement of a withdrawal seeks to make a virtue of a necessity. Italian, British and American forces are sweeping forward from the Piave and the apex of the wedge driven into the enemy's lines has reached Vittorio. Further south the advance beyond the Montebelluna river has driven the Austrians far to the east of Conegliano. The line crosses the Montebelluna river at Frontinelle, heads to the west slightly and then turns south until it reaches the Piave below San Dona. The capture of Vittorio appears to be a heavy blow to the whole Austrian position in the Belluno sector. The city was a principal supply point and gives the Allies a base for an attack against the left flank of the Austrian army. Holding the mountain sector running west of the Piave.

Italian Advance Fifteen Miles
LONDON, October 31—The Italians have advanced fifteen miles in the new offensive since the capture of the town of Vittorio. The capture of the town of Vittorio, which the Austro-Hungarians had been using as their chief base on the Italian front.

"Venice is now safe since the Tenth army has driven back the Austrians in the lower plain. Italian cavalry is advancing rapidly at many points. The number of prisoners is growing hourly and may possibly total 40,000. Opposite the Tenth army, in which American troops are included, it is estimated that the captured Austro-Hungarian divisions have been partially destroyed.

LEXINGTON POLICEMAN KILLED LAST NIGHT

Presley Pullen, an aged policeman who had been on the Lexington force for more than twenty years, was shot and instantly killed on South Broadway, in front of S. A. Glass' grocery store, about 8:30 o'clock Wednesday night, by one of two men, following an attempt to hold up a woman who resulted in a running revolver battle with the proprietor.

The slain patrolman was 60 years old and a native of Scott county. He was the father of several grown children, who reside in Lexington and in neighboring counties.

The police are holding for the crime two men who had exchanged registration cards before they fled, who were captured almost immediately after the crime.

One, who first described himself as "Porter Anneff" old, was taken there, and the other, who said he is Henry Murphy, 30 years old, was arrested in Paris as he stepped off an interurban car.

As soon as "Anneff" learned that "Murphy" had been taken he admitted that he "swapped" cards with his partner and that he, in reality, was Murphy, and that Murphy was Anneff.

SECRETARY DODDS A CHAIRMAN
Mr. R. A. Cochran is getting the district lined up in good shape for this United War Work campaign which will take place during the week of November 11th. He has Lewis, Iracken, Robertson and Mason counties in his district. He received a wire yesterday from Louisville headquarters asking that he appoint another chairman of the Speakers' Bureau to take the place of the late Mr. Reed who has received a commission in the United States Army. He at once wired them his appointment of Secretary Dodds. The county organization is being formed by County Chairman Rees and we expect that he will put Mason county over the top as he has done in several recent campaigns.

FOR SALE
A four room dwelling with gas, water and outbuilding, all in good condition on lot of 30x100 feet situated on Third street in Sixth Ward. Call at Ledger Office.

\$1.25 per gallon. Bring your jugs.
R. LEE LOVEL.

LET'S BUILD CAMP KNOX AT STITHION

Thousands of Men Needed For This
Essential Work Right Now.

Down at Stithion, Kentucky, thirty miles west of Louisville, the United States Government is building the largest artillery camp in the known world. It is necessary to rush work on this camp, if it is to be completed in time to be of the greatest service to the Government and the army, and for the reason patriotic workmen all over Kentucky have been appealed to to go to Camp Knox and aid in this work. The highest wages ever known in this state are being paid these workers. If they work ten hours the contractors give them credit for eleven, and if they work over time they get time and a half and double time for Sunday. Men who have been working on the half and double time for Sunday. Men who have been working on the farms and who have completed the harvest can find here profitable employment. Men who are unemployed can find here a steady and well paid job. Common labor is paid 35 cents an hour, or \$3.85 a day for ten hours work, as each man is credited with the extra hour. Carpenters, men who can use a saw and cut and hammer readily, make \$6.00 a day and \$12 if they work on Sundays. Other labor is in proportion. Men who can drive automobiles or trucks can be used at remunerative wages. Men past 60 and 70 years of age are making more money than they ever made in their lives before.

The men are comfortably housed free. They pay nothing for lodging and warm blankets insure their comfort at night. Their meals, plenty of good, substantial food—all that any man can eat—cost them 30 cents a meal or 90 cents a day, a meal such as would cost \$1.00 to \$2.00 at any hotel today. There is a hospital and medical attendance for any who may chance to be ill, and the location of the camp is one of the most healthful in the state.

We hope this county will add to her already good quota sent to Camp Knox. All we desire to aid the Government in this war effort is to have County Judge H. P. Purnell, County Chairman of the United States Public Reserve, who will furnish all required information. It gives this paper pleasure to do its part in this, as it has tried to do its part in every other patriotic activity since this war broke out, by giving this matter such publicity as the press of news permits.

On election day an effort is to be made to enroll all available labor at the polls, not only men who are of voting age, but those between 16 and 21. Volunteers, who will go to the polling places at their opening and remain to the close, are wanted by Chairman H. P. Purnell. Those who will serve in the different precincts are asked to telephone or write him or speak to him personally about the matter at the earliest opportunity.

HAVE YOUR PIANO TUNED NOW

HEADQUARTERS AT CORK,
IRELAND
Attorney J. M. Cochran, who enlisted in the Y. M. C. A. war service for over seas duty, is now Divisional Business Secretary for Ireland, with headquarters at Cork. Roy's ambition when he enlisted was to see service where the big noise was going on.

Mr. Charles O. Jaynes, C. & O. agent at South Ripley, for the past twenty years, died at a hospital in Huntington last week. He had been ill since last June.

FOOD ADMINISTRATOR'S WORK WITH INFLUENZA

What This Great Organization Has
Done to Stay Its Progress.

Louisville, October 31—As soon as cases of Spanish influenza appeared among employees of the United States Food Administration at Washington, steps were taken to insure proper food, shelter and nursing for those who needed it. First, every absentee was immediately reported and it was ascertained whether their absence was due to influenza. If such was the case, wives of members of the Food Administration immediately went to visit the influenza patients to see whether they were properly housed, were receiving medical care, had plenty of warm blankets, and, in general, were supplied with all comforts necessary that would be their's if they were in their own homes.

Two houses have been opened up and equipped by the Food Administration for the accommodation of patients who cannot receive the care needed in their own homes. Drastic measures were taken with landlords and householders who refused to heat the rooms of patients. Hot broth and other food was prepared in the Food Administration cafeteria and sent in Food Administration automobiles to the patients without cost.

The influenza in the Food Administration building kept working at top speed to prevent the spread of the disease. Between thirty and forty people have been treated each day to ward off possible contagion. The nurse in the infirmary administers "argles and swabs the throats of patients as a means of prevention. The temperature is taken, and any one who shows signs of "rumbling at temperature" is sent home with instructions to go to bed immediately. A careful record of each person who visits the infirmary is kept.

The Food Administration has worked carefully on the influenza problem, compiling the best rules for prevention and care, which it has distributed to every member of its large staff. It was, as befits the nature of its work, the first government body in Washington to institute these means for the protection and well being of its employees, and the example thus afforded has not been without value to other government bureaus.

ENLISTED IN MOTOR SERVICE

Messrs. J. E. Rice, Gues rice, William J. B. Worthington, Robert Pollett, Arthur T. Moore, Clarence Enos, Charles Marshall and Elmer Pugh were among those to enlist here today in the Volunteer Motor Transport Corps and will be in the over seas service in ninety days.

The funeral of Miss Lulu Verooy will be held Friday morning from her late home on the Germantown pike. There will be a brief service at the grave, the burial following in the Maysville cemetery.

ALL THEY CAN EAT
Private John Ring of this county, who is somewhere in France with machine gun company, writes a friend in this city that things are just a little different over there at this time of year to what they are here. He says instead of the leaves turning and falling they are still green and hanging onto the trees. He also says that he gets all he can eat of the best of food, is well treated and happy. What more could a fellow want?

HORSES WANTED
6 to 10 year old horses weighing 1450 pounds, from 16 to 17 hands high. Must be sound. Will be in Maysville at Newell's Stable Saturday, November 2.
W. T. WILMORE.

The name of Bert Russell appeared in today's list of those seriously wounded overseas. His name does not appear among the list of draftees from this county, and it is thought he is a volunteer.

Jimmie Hunt was dismissed of the charge of having violated the sponsonage act when taken before Commissioner Bell at Covington Tuesday.

In the County Court C. C. Calvert was appointed administrator of the estate of Joseph N. Calvert, and qualified with Eneas Myall as surety.

Mrs. Will Reinert, Jr., of Ripley, was brought here to Hayswood hospital suffering from appendicitis and will be operated on.

T OHEROE'S MOTHERS

(From the Woodford County Journal
Eureka, Ill.)

Jennie Gillum, who is doing Y. M. C. A. work in a leave area in Southern France, writes: "I think the song the boys love most of all is 'Mother McChree.' How they sing it; and they are not afraid to let you understand what they are thinking as they sing. And it would almost break your heart to hear them sing 'There's a long trail a-winding into the land of my dreams.' I sometimes don't see how they can sing it. I wish I could tell you about our boys. You see, these are boys who've been over a long, long time; who've seen and known. I cannot or may not tell you the number here—but very many. Their experience is a broadening and deepening one—they are being refined and enabled. Boys of 20 are thinking and saying things that we older people have never grasped. And the lives they are leading—I think they are almost all fine and pure. This is not sentiment; I have observed and watched and listened, and I tell you they are making the name 'American' beloved and honored everywhere. One thing I notice, they are always playing with the little children in the streets; and the people love them. I wish I could send a message to every mother who has a boy here. I should like to tell her not to fear—but always to believe that if her boy was good and pure at home he is good and pure here. In fact, I believe that many who were not good are changing here. I do believe this. They all love to talk about their mothers and sisters; and they all love to pull out the home pictures, and the first one they show is always 'mother'." So tell some of these things to anxious mothers. Some of the other things that were told were German propaganda, and an insult to our young manhood. All day I've been on this

mountain trip with about 50 boys—not picked boys—just the rank and file—and I've heard not one word their mothers could not have heard. Isn't it wonderful and isn't it beautiful? And then, too, they are bright and happy, and boys—but they are thinking."

DIGS UP MONEY, 40 YEARS OLD, IN WAR GARDEN

Denver, Col.—When the spade of Henry A. Butler gas back a ringing sound as he was digging in his war garden at Georgetown he experienced all the thrills of a youngster who uproots his mother tomato plants while exploring for the famous pirates' gold. The treasure was real, too — five bank notes of the series of 1880, buried deep into a rusty old tin can, the bills nearly destroyed by the accumulation of rust which had eaten into them. There were four \$10 bills and one \$5 bill. Two of them were on old Union bank of Denver.

Butler turned his spade over to Secret Service Operative R. K. Goddard, who sent the bills to the treasury department at Washington to be redeemed. Yesterday the money came back—four brand new \$10 notes and one for \$5.

HOINDS FLESH COVEY OF TEN MEN SHOOTING TRAPS

Crystal Springs, Mass.—It. L. Grant, while strolling with his blood-hounds Sunday afternoon, flushed a "covey" of ten trap shooters behind the Chautauqua hills, one mile from town and marched them to the office of Judge Shay. A charge of "gambling" was lodged against them. Most of the gamblers offered to plead guilty.

DON'T WASTE PUMPKINS DURING HALLOWEEN

Save All the Food Possible, As It Is Badly Needed.

Louisville, October 30—"It is not necessary to waste pumpkins, apples, or any other food in order to have a gloriously good time on Halloween," Mrs. Morris Gifford, State Conservation Chairman of the Food Administration, said today.

Mrs. Gifford is deeply interested in saving food at all times—in face, aside from Major Morris Gifford, who wears the uniform in his country, it is about her only interest in life, just now.

"How we used to waste food at Halloween parties before the war," Mrs. Gifford mused as she finished dictating a letter to one stenographer and another moved up to take notes on a second epistle to a county conservation chairman.

"We scooped out pumpkins to use the rinds for lanterns, and then wasted the rest. We threw away the nut shells which now we save for gas mask carbon. We peeled apples to see what mystic letters the peeling would make when thrown over the left shoulder. All of which are horrifying practices to us now in the days of food conservation."

"At this 1918 Halloween we MUST not use food for decoration or amusement. We will have some fun, and have nuts and raisins to eat. "But, after all, it's time for pumpkins, and even though we do not use them for lanterns we can keep up the American liking for pumpkin pie and have it without a qualm of conscience."

Mrs. Gifford then gave a pumpkin pie receipt which she said followed conservation rules exactly. It follows:

- 2 cups pumpkin (cooked and strained)
- 1/2 cup molasses or sorghum.
- 1 teaspoon cinnamon
- 1/2 teaspoon ginger.
- 1/2 teaspoon salt.
- 2 eggs.
- 2 cups milk.
- Mix the pumpkin with the molasses and seasoning. Add beaten eggs and milk; bake in a pastry line pieplate until firm.
- Conservation Trust—
- 1 1/2 cups wheat or rye flour.
- 1 1/2 cup barley or corn flour.
- 1/4 to 1/2 cup of fat.
- Water to make stiff dough.
- 1/2 teaspoon salt.

Sift flour and salt together. Cut the fat into the flour mixture. Add water, mixing and handling as little as possible. Wheat substitutes need a little more water than all wheat flour. Chill until ready to roll out. "Pumpkin pie, with pie and crust made according to these recipes, will bring more good luck than anything I know of," Mrs. Gifford said. "Any way, whoever destroys a good pumpkin this Halloween or whoever in making pumpkin pie wastes wheat flour, lard or sugar, will have a guilty conscience, and ought to have indignation."

MR. LONGEST IS LONGEST MAN IN TRAINING CAMP

Wiggins, Miss.—"Longest" is no misnomer in the case of Prof. H. P. Longest, principal of the Magnolia Consolidated school, near here. The army has refused to accept Prof. Longest as a soldier, because he is too tall. Examining medical officers at Camp Shelby, where Prof. Longest arrived recently, found him to be 6 feet and inches tall, the tallest man yet received at the camp.

Why not try a Ledger Want Ad?

BACKACHE IS A WARNING

Maysville People Should Not Neglect Their Kidneys. Backache is often nature's most frequent signal of weakened kidneys. To cure the pains and aches, to remove the lumpiness when it arises from weakened kidneys, you must reach the cause—the kidneys. If you have pain through the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy.

Doan's Kidney Pills have been proved good and are especially for weak kidneys. Doan's have been used in kidney trouble for over 50 years. Read Maysville testimony.

Mrs. E. Spbar, E. Second and Walnut Sts., says: "I have never seen Doan's Kidney Pills fail to help anyone complaining of the kidneys. I have been greatly benefited by them myself. At times my back has ached and I have suffered from lameness through the small of my back. When I have been in that way, I have used a box or so of Doan's Kidney Pills, which I procured at Chmisor's Drug Store. They have always quickly removed the trouble."

Mrs. Spbar is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you—don't simply ask for a kidney remedy ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Spbar had—the remedy backed by home testimony. 60 cents at all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back Is Lame—Remember the Name."

OLD BOOK TELLS HOW THEY FED FIGHTERS OF '76

Gen. Washington's Menu During Revolution Had No Sugar.

Washington, D. C.—Among the George Washington records at the congressional library is the old account book of Caleb Gibbs, who bought the supplies for Washington's staff all through the seven years of the revolutionary war. Its pages are yellow and the ink is faded, but the old hero's records are still clear, and it is interesting to see what the fighters of these days ate.

The book began in April, 1776, when Washington's headquarters were in New York City on Pearl street, opposite Cedar. At this time the war had not yet affected prices to any extent. The first purchases on April 10 were seven pounds of beef at sixpence a pound; one tongue at 3 shillings; four pounds of butter at 1 shilling sixpence a pound; salad and celery, 1 shilling; six birds, 1 shilling, and a shilling's worth of potatoes. There was no sugar at all.

There was not much variety in the war diet of 1776. On page after page five find beef, cabbage, salt, eggs, milk butter, asparagus, bacon, nuts, elder. Asparagus, cabbage and potatoes, and occasionally cucumbers, are the only vegetables mentioned.

There were some of the same food problems then as we have now. Transportation was the cause of shortages, just as it often is today, but then it was the ox teams that broke down as they dragged along the country roads or were blocked by military transport.

In the first part of the revolution the states were taxed to provide money for feeding the army, but later they were required to send the food itself instead of money. It was then that things were at the lowest ebb for the continental armies.

Drink Milk==Eat Milk

It's the perfect food. And it's the cheapest food. It's nature's food. One quart of milk is equal in food value to eight eggs, or three-quarters pound of steak. Eight eggs at present cost 32 cents. The finished steak cost at least 28 cents. But a quart of milk does not cost 32 or 28 cents. It costs a good deal less than that.

The United States Food Administration says: "A quart of milk a day for every child, if possible, a pint without fail; a third of a quart for each adult."

Think it over and ask for Pasteurized milk. Its safe to use.

MINERVA'S BIGGEST EVENT THIS YEAR

**We Invite You and Mother and the Kids to
Come and Bring Your Lunch and Spend
the Day With Us Next SATURDAY at
Rhodes Bros. Farm, 2 Miles From
Washington, Murphysville Pike**

We are going to have an old-fashioned, get-together jollification meeting and make it the most interesting, instructive, enjoyable day you ever spent. You have heard of the aeroplanes flying over Cincinnati, dropping messages from Washington all over the streets. You have heard of the racing automobile that could go from Maysville to Cincinnati in 32 minutes. You have heard about the gun that shoots 75 miles—the wireless telegraph that made it possible for a ship out in the middle of the ocean to pick up a "German note."

Now comes another invention just as marvelous—the MOLINE TRACTOR—the wonderful power farming machine that the United States Government needs as much as its army—because the army must be fed. You farmers, therefore, are the world's most important citizens. Without your co-operation and energy—the nation would soon crumble. Yours, therefore, is a tremendous responsibility. The MOLINE tractor is the greatest aid that a farmer could possibly have.

Do you know—can you picture—is it possible for you to imagine what a MOLINE tractor will do on a farm in one day—operated by one man—and not a horse on the place? Just read and THINK

MOLINE

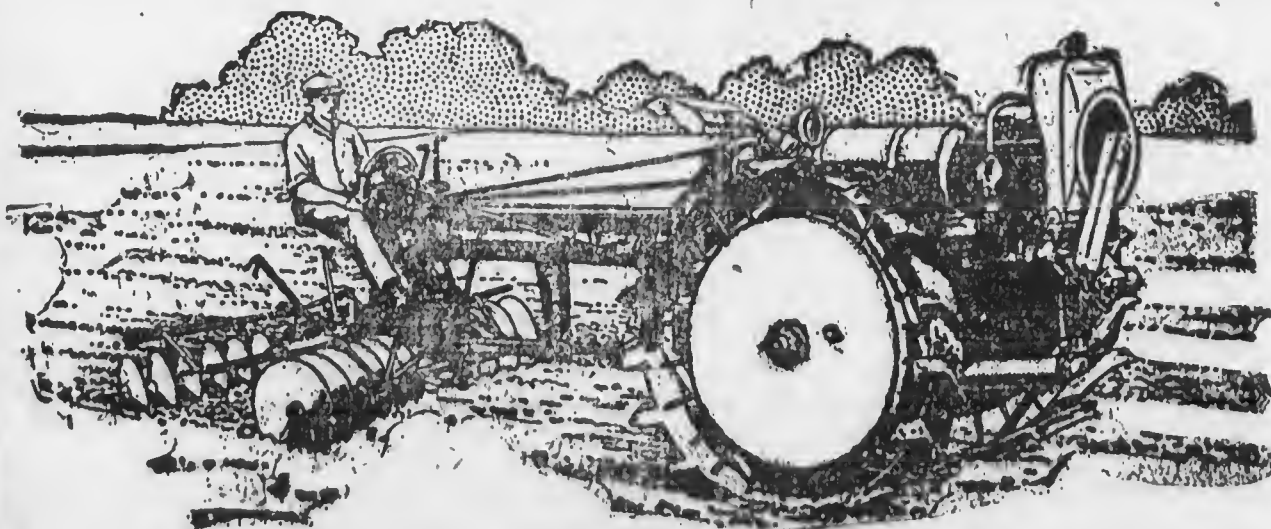

UNIVERSAL TRACTOR

It Solves The Farm Help Problem

The MOLINE tractor in one day, operated by one man, plows 7 to 9 acres, discs 27 acres with a 7-ft. tandem disc; disc 38 acres with a 20-ft. disc; harrows 76 acres with a 20-ft. peg tooth harrow; plants 22 acres with a two-row planter; plants 43 acres with a four-row planter; cultivates from 14 to 20 acres with a two-row cultivator; drills 35 acres with a 10-ft. grain drill; harvests 25 acres with an 8-ft. grain binder; harvests 10 acres with a corn binder; mows 25 acres with an 8-ft. mower; rakes 25 acres with an 8-ft. side delivery rake; loads 12 acres of hay.

Now, it has been said that the Mason County farmers are the smartest, liveliest, most up-to-date and wide awake in the entire state of Kentucky. We are proud of that reputation—we want to hold it—we want the greatest outpouring of farmers on next Saturday to see the demonstration of the MOLINE tractor that Mason County has had in years. Think of it. We are going to take this wonderful power machine that drives like an automobile and make it show off all its tricks—just like a trained lion in the circus. We are going to make it plow, disc, harrow, plant, cultivate, drill, harvest, mow, rake, load and do everything else to astound you and make you rub your eyes. We are going to let you, yourself, climb up in the seat of the tractor and take a little spin around the field. We are going to make you absolutely sorry and sad that you have wasted all that time and done all that hard work all those years, with a HORSE-drawn plow, etc. We will show you that this MOLINE tractor not only can do the work of 6 horses and 6 men, but that it can do stunts impossible for a horse to do. Now here is your opportunity to see this wonderful machine in action—and you know you owe yourself and the family a little rest and recreation. Do not let anything short of the Spanish Influenza keep you away. Remember the date—next Saturday NOVEMBER 2nd—and the place—RHODES BROTHERS' FARM—JUST 2 MILES FROM WASHINGTON—ON THE MURPHYSVILLE PIKE.

Start making your plans today to come. You will meet your friends and neighbors and see sights you will never forget.

**The Moline Has
Improved Features
Not Possessed
By a Tractor of
Any Other Make.**

The MOLINE is the only tractor with electric lights and self-starter—that cultivates the seed in the soil—reverses and goes around a stump—cultivates 2 rows at a time—with the seat behind and the work ahead—no working parts exposed to dust and grit—that can be turned in a 16-foot circle and steers like an automobile—that starts and finishes a field without a horse—equipped with electric governor used for belting work—has device to lock differential to guarantee perfect traction in soft ground—that has radiator that will not heat up. All of these improvements being necessary and exclusive to the MOLINE—no other Tractor could possibly be as good as the MOLINE.

SMALL FARM FOR SALE

We have for sale the farm of Mr. Jesse Calvert, located between the Mt. Carmel and Bull Creek pike. This farm is all in grass and has been for years, therefore is any amount of good tobacco land on it. The improvements consist of good small house, stable, corn crib, with wagon shed, tool house, hen house. Here is a farm for some young man to get a start on as the price we have on this place will surprise you. For particulars see the the undersigned or Mr. Calvert.

DON'T WAIT TO BE DRAFTED

Volunteer as Patriots for Government Work!
Carpenters 60c Per Hour
Laborers 35c Per Hour
LODGING FREE

THE GOVERNMENT AT WASHINGTON HAS CALLED UPON THE CITIZENS OF KENTUCKY AT ONCE TO FURNISH THE MEN TO BUILD—OR LOSE FROM THE STATE ENTIRELY—THE WONDERFUL CAMP HENRY KNOX, AT STITHTON, DESIGN-ED TO BE THE GREATEST ARTILLERY TRAINING CAMP IN THE UNITED STATES.

THE CREDIT AND GOOD NAME OF THE COMMONWEALTH OF KENTUCKY MUST BE UPHOLD, AND THE STATE MUST NOT LOSE THIS GREAT PLANT, CALLING FOR AN INVESTMENT ON THE PART OF THE UNITED GOVERNMENT OF FROM \$15,000,000 TO \$20,000,000.

UP TO THIS TIME THE WORK HAS LAGGED FOR WANT OF MEN. IT IS NOW UP TO THE MEN OF KENTUCKY TO VOLUNTEER, OR BE FORCED TO DO SO LATER ON. THERE IS NO MIDDLE CURSE.

10,000 WORKMEN MUST COME FORWARD!

CARPENTERS AND LABORERS

Wages are high and are fixed by the Government. Carpenters 60 cents an hour. Laborers 35 cents an hour. Carpenters and laborers work ten hours each day, receiving pay for eleven hours. Saturday afternoon and Sunday work (not compulsory) double pay for carpenters; time and a half for laborers.

Free sleeping quarters provided with new cots and blankets. Meals 30 cents each. Transportation free to laborers and charges are advanced to carpenters from any point in the State.

SANITARY CONDITIONS ARE OF THE BEST.

Camp Knox was selected for a permanent site because it is located on the highest point of land on the Illinois Central between Louisville and New Orleans. Camp Knox has one of the best health records in the country.

PATRIOTIC WOMEN OF KENTUCKY

See to it that every able-bodied man in the State, not engaged in other War Industries, volunteers his service at high pay, to help get this great permanent Kentucky camp ready for the brave boys of this Commonwealth and other States, now billeted in tents at Camp Taylor and West Point, so they will not have to suffer the privations of General Washington and the Continental Army at Valley Forge.

If it is not your own son who must be housed at Camp Knox this winter, it is the boy of some other mother—all of them training to protect our Liberty in the great fight for Freedom.

Provide men do not volunteer for this well-paid and necessary patriotic work, it is the duty of every loyal Kentucky woman to report them to the nearest United States Employment Service, just as they would a Hun Spy or an Army Slacker.

Show them their Duty!
 Make them Volunteer!
 Take their Places!

CAMP KNOX MUST BE READY DECEMBER 1.

Before cold weather sets in, barracks at Camp Knox to shelter not less than 30,000 Army Boys, and stables for at least 15,000 animals must be completed. This is imperative.

Full-blooded Kentucky co-operation can complete quarters for not less than 50,000 soldiers and 30,000 animals in that time, if all work together. It is a man-sized job, all right, even for Kentuckians, but it can be done, as Kentuckians never fail in what they undertake.

This space is donated for patriotic purposes by the following members of the Maysville Bar—

FEDERAL JUDGE A. M. J. COCHRAN.
 U. S. DISTRICT ATTORNEY THOMAS D. SLATTERY.
 E. L. WORTHINGTON.
 COUNTY JUDGE H. P. PURNELL.
 J. M. COLLINS.
 W. D. COCHRAN.
 FRANK P. O'DONNELL.
 LEWIS BROWNING.
 ALLEN D. COLE.
 STANLEY F. REED.
 H. W. COLE.
 ROY COCHRAN.
 JOHN M. CALHOUN.
 W. H. REES.
 CHARLES L. DALY.

NOTE—If Merchants will post this in display windows they will render our Government a splendid service.

The fair name of the old Commonwealth—the Fourteenth State to be admitted in the Union—is at stake in the National Capital and before the Country at large.

EMPLOYERS—NOTICE—IMPORTANT.

If your work is non-essential, give up some of your men at once and advise them to go to Camp Knox. If the call for Volunteers is not heeded you may be required to shut down completely. We do not wish to do this by compulsion.

This is no time for shilly-shallying. We must have ACTION. The work is Vital. It is Imperative.

Be a Volunteer and Go at Once!

MEN, MEN AND MORE MEN TO SAVE KENTUCKY!

This is an EMERGENCY necessitating drastic action if the call for volunteers is not heeded.

When the order came from Washington telling what Kentucky had to do to save Camp Knox for the State, Federal Director Pratt Dale, of the United States Employment Service for Kentucky, immediately held a War Council of affiliated interests composed of Major W. H. Radcliffe, Constructing Quartermaster at Stithton; John Griffith & Son Company, builders of Camp Knox for the Government, and O. L. Taylor, District Organizer of Kentucky, United States Public Service Reserve; Edward W. Hines, State Chairman, State Council of Defense. Determined action was decided on. All Government agencies will be invoked to secure the necessary men.

Let the word go out broadcast of Kentucky's need of men in this greatest of humanitarian war works—housing our soldiers.

Let it go out at once.
 Preach it from the Pulpit.

Organize the Workers at once—and report them to your nearest United States Employment Service or to your County Chairman, United States Public Service Reserve.

IT CAN BE DONE WITH YOUR HELP

Georgia furnished 5,000 men to save its pierie acid plant—raised them in two weeks. Kentucky can do even better.

Major Radcliffe says: "Every nail you drive, every brick you lay, every bit of real work done, will add to the growing load around the Kaiser's neck. The war won't wait!"

Men and Women of Kentucky—Do your duty for your Country and your Commonwealth and help us to Protect YOUR Boys.

"ON YOUR GUARD"

The Chamber of Commerce received a number of placards a few days ago from the Fifth Avenue Merchants' Association of New York which they had distributed to the stores throughout the city. These placards are intended to help the Government in keeping desirable information from the enemies. The card bears the following appeal:
 "Please refrain, when in public places, or before strangers, from any remarks of a nature to weaken patriotic energy and confidence in our leaders and in our Allies, or from statements regarding the number or movement of our troops, the work in munition plants, etc. Information overheard may be reported where it can give aid or comfort to our enemies."

Mr. Pickett Houlton and family have moved from corner of Lexington and Second streets to the property vacated by Mr. Frank Devine on East Second street.

A letter received here by a friend announced Mrs. L. M. Cavendish's condition as improving. She has been seriously ill in Cincinnati the past several days.

Mrs. W. S. Stephens and Mrs. Charles Hutchens of Peru, Ind., were the guests of Mrs. Bettie Trisler, of Eastland last week.

Catarrh Cannot Be Cured
 with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials, free.
